

# Chart View Basics

Article Number: 37 | Rating: Unrated | Last Updated: Tue, Jul 19, 2016 at 10:47 AM

## Overview

The **Chart View** shows an overview of collected information, allowing access to completed forms for a single client. This will be the view shown any time information is entered into an individual's record by.

## Applicable Staff

All ID users will have read access to client charts. User role will determine what can be seen and edited.

## Usage

To access the **Chart View** from the Home View, either select a client or open a client-specific form. The initial view shows the **Overview**. Various widgets show detailed information, and can be modified by dragging and resizing, or by clicking the Customize Widgets button to choose which widgets will be shown.

The screenshot shows the Avatar 2016 software interface. At the top, the user is logged in as John D. The client information for JOHN DOE (00000013) is displayed, including M, 61, 05/05/1955, Ht: 6' 0.0", Wt: 175 lbs, BMI: 23.7. The interface is divided into several sections:

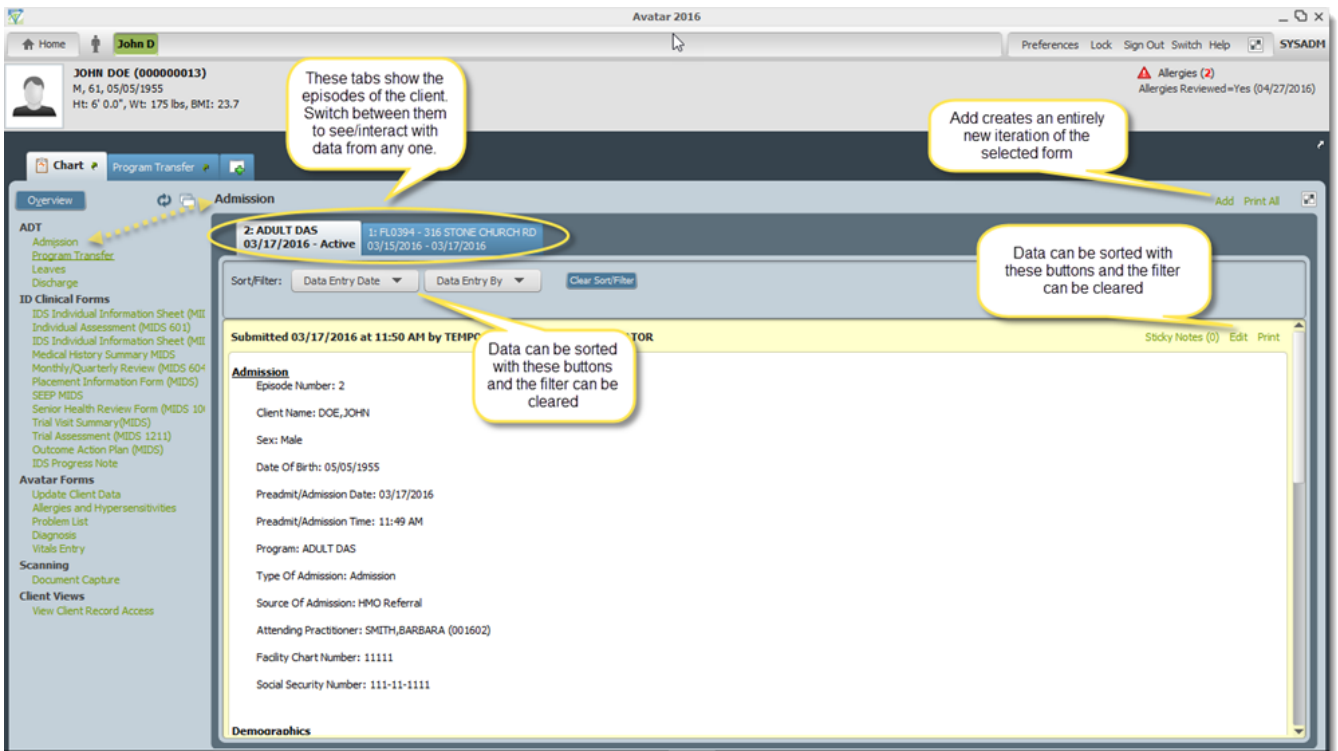

- Left Sidebar:** A list of forms categorized under ADT, ID Clinical Forms, Avatar Forms, Scanning, and Client Views.
- Overview Section:** Contains several data widgets:
  - Client Episodes:** A table with columns: Episode Number, Program, Admit Practitioner, Attending Practitioner, Admit Date, Discharge Date, and Primary Diagnosis.
  - Active Diagnoses:** A list of diagnoses such as Intellectual disability and Alcohol abuse.
  - Vital Signs:** A table with columns: Vital Type, Most Recent, and Previous.
  - Service History:** A table with columns: Date, Status, Start Time, End Time, Staff Name, Program, Service Code, Duration, Cost, and Location.
  - Progress Notes:** A section for notes, currently showing "Activities--INACTIVE - 06/23/2016 by TEMPORARY SYSTEM ADMINISTRATOR".
- Bottom:** A row of buttons for "Current Medications", "Vital Signs - Ht, Wt, BMI", "Vital Signs - Blood Pressure", and "Financial Eligibility".

Callouts in the image indicate: "All Widgets can be moved and resized as required" (pointing to a widget's top-right corner), "Customize Widgets function allows tailoring of the view" (pointing to a gear icon), and "These buttons show additional Widgets that can be selected" (pointing to the bottom buttons).

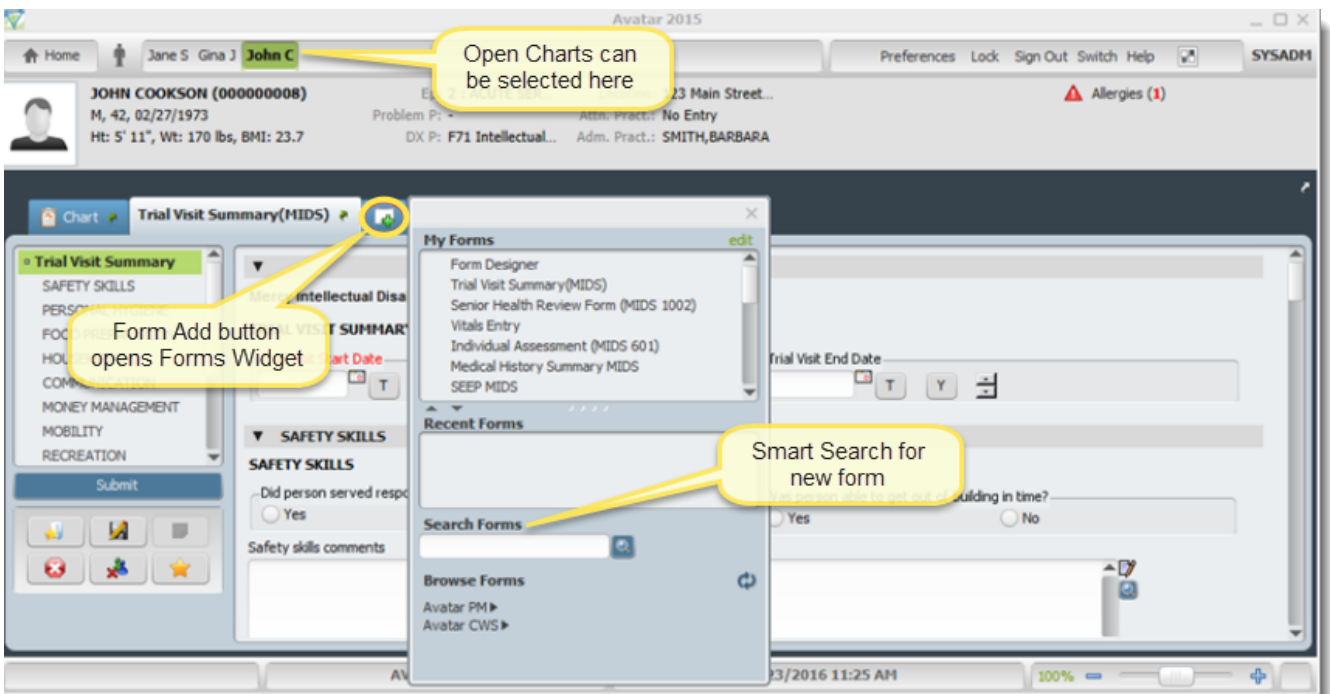

Down the left side of the screen is displayed a list of forms that can be accessed quickly. By clicking the form name in this list, the display to the right changes to show all the forms of that type that have been completed for the selected client. The forms listed can be modified by your system administrator if necessary.

Select the desired information from the choices on the left. To add a new form of the selected type, click **Add**. To print all currently selected forms, click **Print All**.

Data can be filtered by **Date** and **Data Entry By** if desired. To close the chart view for the selected client, click the red X symbol near the Overview button  (not always available).

New Forms can be created by selecting the **Form Add** button and searching for a new form. Details regarding forms can be found in this article: [Using a Form](#) Multiple client charts can be accessed by selecting the names next to the Person icon above the Client Data Bar .

# Tips & FAQ

Any useful tips, and questions provided by users after roll out.
